

Position

ENERGY SOLUTIONS PROJECT MANAGER

Location

VARIOUS

Nedco Energy Solutions (NES), a department within Rexel Canada, is looking for a talented and experienced project manager, with a proven track record, for its Energy Management & Sustainability group. You will be joining a team that is dedicated and passionate about helping clients in the ESCO, Commercial, Industrial and Education categories to achieve their energy management and sustainability goals. The primary focus of the project manager is to manage various energy related projects for the clients of NES.

QUALIFICATIONS

- University/College Graduate. Technical or business diploma/degree is a requirement
- Minimum of three (3) years of project management experience
- LEED and PMP designations are preferred
- Experience with energy efficiency, lifecycle and renovation projects is preferred
- Strong trouble shooting and problem-solving skills.
- Excellent time management skills in managing workload and work schedules.
- Basic accounting and financial management skills applicable to the management of construction projects.
- Solid writing and presentation skills.
- Excellent Excel skills
- Strong inter-personal skills and the ability to negotiate effectively.
- Commitment to working in a team-based environment with a focus on continuous improvement and quality customer service.

RESPONSIBILITIES

- Professionally represent NES in all client and subcontractor interactions.
- Ensure all work is conducted in a safe manner and in compliance with safety, quality and human performance policies.
- Prepare, develop and administer construction contracts
- Management of site work, keeping project scope on budget and on schedule.
- Prepare and develop project schedules
 - Prepare, maintain and monitor project and construction budgets
 - Provide direction and lead subcontractors to ensure projects are completed within scope, time and budget.
 - Oversee construction execution including start-up, coordination, commissioning, deficiencies, etc
- Coordinate with other internal departments (supply chain, credit, project coordination) to ensure smooth and successful execution of projects.
- Manage internal and external stakeholders
- Review drawings and specifications when required
- Perform other duties as assigned.
